Investors & Analysts' Briefing

GOVERNMENT OF ASTURIAS PROVISIONALLY AWARDS 246 MW TO EDP

In line with the execution of the growth and investment plan in wind capacity previously communicated to the market, EDP Renováveis has been participating in several tenders for the award of electricity production licences through wind energy in the Spanish market, which includes the tender recently promoted by the Government of Asturias to award capacity up to 676 MW.

Under this tender, EDP Renováveis has been presently notified by the Government of Asturias, on the provisional awarding of 246 MW, corresponding to circa 36% of the total capacity to be attributed in this tender.

The effective final award of this capacity is now awaiting the conclusion of the tender procedures and the execution of the wind projects is subject to the regular process of developing and licencing, in accordance to the law and to the regional and local regulation applicable to the Spanish market.
