## Investors & Analysts' Briefing

### **GOVERNMENT OF CANTABRIA AWARDS 220 MW TO EDP RENOVÁVEIS**

The Spanish regional Government of Cantabria has announced the granting of a total of 1,336 MW in its tender to award electricity production licenses through wind energy.

According to the available public information, EDP Renováveis ("EDPR") was awarded with 220 MW in the region of Cantabria, corresponding to 16% of the total assigned capacity.

The effective final award of this capacity is now waiting for the regional government's formal notification and the consequent acceptance by the company of the awarding conditions defined within the tender procedures.

The execution of wind projects in relation to this capacity will also be subject to the regular process of developing and licensing, in accordance to the law and regulation applicable in Spain.

EDPR expects the awarded projects to reach the ready-to-build phase from 2013 onwards.
